Design and Performance

Polaris 3900 SPORT

Pressure cleaner

Design and performance!

In addition to benefiting from 40 years of experience acquired by the Polaris cleaner, -the worldwide reference in its domain-, the new 3900 SPORT also relies on entirely new technology. Each detail has been carefully designed to optimise its performance, reliability and ease of use. Its Aqua-dynamic design contributes to its efficiency: regardless of the shape of the pool, the 3900 SPORT sets a new style and new standard of performance.

Cleaning speed & Suction power

**AQUA
DYNAMIC
DESIGN**

**3
JET
POWER**

3 drive wheels fitted with wide trax tyres:
Allows for maximum climbing capability and improved power transferred to the wheels.
The 3900s easily frees itself from the most difficult areas of the pool.

■ **3 ultra powerful Venturi jets:** providing enhanced suction power

Optimised surface cleaning area

Sweeps the areas difficult to access

Directional jets

■ Automatic anti-blocking recoil valve

Tests carried out in 150 swimming pools proved that the 3900s has the best cleaning coverage, regardless of pool shape.

Reliable & Simple

Stainless steel chain:
the most reliable and efficient system available

Double capacity bag:
40% more holding capacity
Angled hose: system prevents back flow of debris

Easy setting:
integrated float

Easy installation:
Quick and easy hose connection

- Sealed gearbox: protected from dust, debris, etc.
- Plastic material: high quality and high resistance

Product specifications

- System: **Hydraulic Pressure**
- Power: **Booster Pump coupled with the filtration system**
- Booster pump power required: **1 hp**
- Operating pressure: **2.2 - 2.6 bars**
- Dedicated pressure point or vacuum point converted to a return line: **16 bar rigid pipework**
- Suction: **3 jet venturi system**
- Movement: **Random with automatic reverse**
- Debris collection: **separate filter bag and sweep hose**
- Type of debris: **dust, insects, gravel, leaves**
- Warranty: **2 years**
